

### ▷ Title

Japan Seminar on Technology for Sustainability 2022 (JSTS 2022)

### ▷ Purpose

The purpose of this seminar is not only to gain knowledge based on SDGs17 but also to enhance global communication skills and facilitation skills which are indispensable to work with diverse groups in this globalized society.

### ▷ Theme

Realization of “Super-smart society and clean energy” that leads to social happiness

All the participants will work on a project in small groups by utilizing basic knowledge of SDGs learned through the seminar. Each group will pick one of the issues concerning SDGs17 and search for the solutions from different angles. Each group needs to make a presentation that includes a short movie.

The participants will have opportunities to discuss and work with the students from different cultures and perspectives so that they are able to not only improve their English skills but also nurture their diverse mentality to become individuals who will contribute to realization of “Super-smart society and clean energy” .
